LESS SMOKE, MORE FLAME **ESCEA EP1350**

Nothing brings people together quite like food and flames. Now Escea has found the perfect way to combine them both with the EP1350 Fire Table.

Inspired by the classic campfire, the Fire Table is made for gathering, sharing, and marshmallow toasting. It's a new twist on an old classic. Only better, because Escea's Vortex Firecore technology gives you the warmth, ambience and flames of a campfire, without all the smoke.

Cool Touch

Keep your food warm and your drinks cool with Escea's innovative cool-touch technology. When the fire is going, the outer ring is designed

to be cool enough to rest your food, drinks or your elbows, making it safe for the whole family.

360° social cooking experience that gets everyone involved.

With three cooking modes to choose from – an inner stainless steel ring for a consistent medium heat, a removable kebab holder, and a cooking grill for the perfect grilled tapas.

EW5000 COOKING FIRE

Escea's outdoor fires keep you warm and add a dramatic focus to any outdoor gathering. For the traditionalists, drawn to spark and flame, the EW5000 provides a wood fire that you can cook on, as well as bask in front of. The EW5000 can be installed with or without the stainless steel frame.

EF5000 FIREPLACE

The EF5000 is the ultimate outdoor gas fire, whether you're planning on entertaining all night or just want to unwind after a long day at work. Operated by the touch of a button, the EF5000 gives you quick convenient heat so you can get down to the business of relaxing in front of the flames.

Optional Pizza Oven

CONTEMPORARY OUTDOOR REGENCY HZO42

Create an outdoor space you can use all year round with the Regency HZO42 outdoor gas fireplace. All of the sophisticated, contemporary styling and quality workmanship is mirrored in this dramatic outdoor fireplace.

Beautiful wide angle flames

This fireplace delivers amplified by a reflective stainless steel body and picture frame faceplate. A tempered glass wind shield ensures a strong

flame picture and the seasonal weather cover (included) will protect the fireplace when it's not in use.

The HZO42 delivers beautiful wide angle flames amplified by a reflective stainless steel body with the choice of ceramic

garden stones, reflective crystals or logs. Quality, style and durable outdoor function make this fireplace a perfect outdoor option.

RADIANT OUTDOOR PANEL HEATING

The Rinnai Outdoor Radiant Heater range offers the latest technology in premium, outdoor electric heating. Inspired by the sun, the heater sends down beams of gentle warmth directly to objects and people, rather than blowing hot air that escapes.

Whether you want to barbecue in the colder months, or simply enjoy a night cap on the deck with a loved one, the Outdoor

Radiant Heaters create a relaxed, ambient atmosphere so you can make full use of your outdoor space regardless of the weather.

Engineered for Australia's tough climatic conditions, this heater is constructed from high quality materials that will maintain the stylish appearance throughout years of use.

- ✓ Class leading protection from dust and rain (IP65)
- ✓ High quality, corrosion resistant materials
- ✓ Light indicator to show on/off status

Servicing the community since 1959

The VisionLine pellet fire pizza oven reaches beyond 260°C super fast, cooking authentic stone-baked pizza within 15 minutes of lighting. Swap the pizza stone for the griddle plate and drip tray for a woodfired grilling experience.

Perfect for making pizza anywhere, the VisionLINE pizza oven has foldable legs and is lightweight.

CONTRACTOR BARBEQUE

Jetmaster built-in BBQs are here to transform your outdoor area! The Contractor range of built-in BBQs from Jetmaster will add a new dimension to your entertainment area around which friends and family can gather.

Usable as an outdoor fire as well as a BBQ, the timeless design will enhance your patio and easily blend with your outdoor entertainment living area.

Available in 2 sizes, 1000mm & 1200mm wide.

UNIVERSAL FIREPLACE

Think back to that special feeling you get from a real wood fireplace. You might be with family, loved ones or a circle of friends, and even long after the last embers fade, that warm, crackling glow stays with you.

With a variety of sizes and depths, our Jetmaster range

can fit seamlessly into virtually any residential or commercial space. Whether you're replacing an existing fireplace or adding a new one to your home, we can customise every detail to suit your space, including universal double-sided or freestanding wood fireplace models.

CERAMIC RADIANT HEATING

Add comfort and warmth to your outdoor area with the Ambe range of radiant ceramic overhead heaters. Sleek and

sophisticated, with a digital display and remote control, these heaters will add style to your outdoor space.

Ceramic Radiant Heaters work through an electric element which heats the ceramic blocks within the unit. This heat is then pushed down and outwards. 40% of that energy creates direct heat, and the remaining 60% heats the air between the unit and the person. This means you and the space around you keeps warm.

Ceramic Radiant Heaters provide discreet background heat where style is important and the brightness of an infrared element isn't desired. The remote control provides complete vicinity control and the digital display gives you a low light indication of the current temperature setting.

DURABILITY MEETS POWER **BROMIC TUNGSTEN**

Turn up the heat with the Bromic Tungsten Smart-Heat™ Gas Series. This powerful radiant heater can quickly heat up outdoor areas of up to 20m², providing a comfortable, warming red glow all year around. With its stylish matte

black design and exceptional wind resistance of up to 8mph, this heater will keep you and your guests warm at any time of the year. Choose between 25 MJ and 42 MJ heating power and natural gas or propane (LPG) options.

TUNGSTEN SMART-HEAT™ PORTABLE

Up to 3 times more efficient than traditional Mushroom heaters, the Bromic Tungsten Portable Gas heater has got you covered! With its award-winning, matte black finish, it's a piece of modern art and a high-performance radiant heater in one, creating comfortable warm environments in areas of up to 20m². This highly efficient heater easily overcomes winds of up to 13km/h and wastes little to no energy thanks to its use of directional heat, making sure the heat ends up exactly where it's needed.

Powerful yet easy to maneuver

The award-winning Tungsten Smart-Heat™ Portable heater offers efficient heating in a stylish, modular and maneuverable design with a neutral black finish.

TUNGSTEN SMART-HEAT™ ELECTRIC

Expand your living space with the Bromic Tungsten Smart-Heat™ Electric series. Combining stylish, industrial design with market-leading radiant heat technology, each Tungsten Electric heater

will provide an even flow of warmth to outdoor spaces of up to 15m². The heater's high-temperature coating and stainless-steel construction make it suitable for all environments.

PLATINUM SMART-HEAT™

Effective heating technology, an award-winning design and very little light emission. With its ultra-slim, high-quality 304 stainless steel chassis and Schott tinted ceramic-glass screens, the award-winning

Platinum Smart-Heat™ Electric virtually disappears into its surroundings while delivering market-leading radiant heat output that will warm you and not the air – just like the sun.
