charnwood 

## TRADITIONAL STYLING, INNOVATIVE DESIGN

Charnwood offer an extensive of range of wood burning and multi-fuel stoves to suit virtually every home heating requirement. Charnwood offers both contemporary and traditional styles that incorporate the very latest clean burn technology.

Charnwood stoves are built to last.

## UNIQUE, STRIKING & FUNCTIONAL

Your ideal wood fireplace no longer comes at a cost of floor space thanks to **VLAZE Heat Shields & Hearths**.

The Vitreous enamel panel features a dual skin that provides thermal protection and an effective convection system that distributes heat back into the room. Installation is a breeze with the supplied mounting rail system included.

Luxurious vibrant glaze, heatproof, non-porous and stain resistant. Ask us about the VLAZE Heat shield & Hearths.

*Available in  
Solid Black, Black Splatter,  
& Off White Crackle*

VLAZE

## MASTER STOVE MAKER SINCE 1854 BRITISH BUILT

## IRONHEART STOVE

The **ESSE Ironheart**, a slow combustion wood stove that not only offers that statement piece to any kitchen, but heats up to 80m<sup>2</sup>.

It offers unique flexibility with a single oven on one side and ability to cook over glowing embers in the other for your favourite char-grilled meats/veggies, even for making best wood-fired pizza's.

ESSE's unique "dog-bone" shaped hot plate has complete temperature control, you can boil to the right, simmer to the left and char-steam directly on the hot plate

# PUSH START IGNITION

Starting your wood stove has never been easier as Lopi has revolutionised the way consumers today start wood fires!

The **Lopi GreenStart** system instantly elevates combustion temperatures within your stove, immediately establishes a draft and eliminates the slow and smoky typical wood fireplace start up.

Never before has getting your wood fire burning been so simple.

## SAME SAME BUT NEXGEN-FYRE

With the expense of heating your home using gas or electricity constantly going up, you may be considering going wood.

NexGen-Fyre™ takes Lopi's non-catalytic wood burning technology to the next level! With NexGen-Fyre™ primary and secondary combustion are harnessed to create the ultimate blended combustion system.

This produces beautiful, balanced fires with twice the power, up to 50% greater heat output, and longer burn times than any other non-catalytic technology.

*Wood is good.*

**DaVinci**  
CUSTOM FIREPLACES™

## WELCOMING THE DAVINCI BAY TO OUR SHOWROOM

Custom made-to-order, the **DaVinci by Lopi** offers near-endless possibilities with build lengths between 914mm to 6.4m and glass viewing height options between 12" and 58" (yes, that's over 1470mm tall).

The DaVinci Series offers a Crystal Clear Safe Touch Glass, LED under lighting, and the Zero Clearance means you can eliminate any need for expensive

non-combustible building materials and ultimate freedom to finish the wall how you want, with whatever you choose to.

This innovative series offers an external heat exchanger option allowing owners to capture a portion of vented heat to be used as a supplemental heat source on occasions where extra warmth is desired.

## CONSUMER CHOICE

Offered in two sizes, the **Flush Wood Nex-Gen** series was an absolute bolter in 2021. Clean burning, solid construction, and long burn times certainly helped. The large heating capacity and multiple fascia options also mean't customers were able to match their favourite heater to their home without leaving any boxes left unchecked.

Lopi Fireplaces, humble beginnings in Washington (USA) and trusted by Australian families for over 30-years offering a wide range of Gas and Wood Fireplaces.

See their full range (including the NEW ProBuilder 24) on display at our HUGE Showroom in Upper Ferntree Gully today!

## LARGE, MODERN & ELECTRIC? GAZCO eREFLEX

Yes Bob Dylan, the times they are a-changin'. Electric fireplaces are now bigger, better, and....bigger.

The **Gazco eReflex** range introduces us to the world of high-end linear electric fireplaces. Designed and

engineered in the UK, the eReflex range offers undulating flame visuals danvind amongst a deep bed of realistic logs or shining crystals making them truly captivating.

Available in a variety of styles

and sizes, Gazco's collection of built-in or wall mounted electric fires will be at home in a wide array of interiors and without the need of a chimney!

The perfect ambiance to suit your mood, with only your imagination holding you back.

## DIVIDED BY FIRE

Break up your large living space with this double sided wood fire. At over 1m wide, make a statement in your home today with the **Regency Mansfield**. The Mansfield builds on the **Regency Montrose's** success in the Australian market but now with 2-times the viewing area and 2-times the control.

This contemporary wood fireplace offers the ability to load from either side, large viewing glass, clean lines & heats between 100-200sqm at 63% average efficiency.

## DESIGNED TO SUCCEED

Offered in 2 sizes to maximize most fireplaces, the Berwick & Bellerive wood fire inserts have been an Australian favourite for many years.

The **Regency Berwick** offers a large glass viewing area, 2-speed fan, heat output of up to 180sqm at 61% efficiency while maintaining a low emmissions rating of 0.6g/kg. If you are struggling to find a wood insert small enough to fit into your fireplace, this could be your heater.

Like the Berwick, the **Regency Bellerive** also offers large glass viewing & 2-speed

fan but has the capacity to heat areas up to 250sqm at 65% efficiency while sustaining low emissions of 0.8g/kg. If you are looking to maximise your existing fireplace opening, this is a fantastic option. Large, contemporary and excellent value for money.

No fireplace? Both wood inserts are approved for Zero Clearance installations\*. Giving you the option to install it exactly where you want to without any constraints.

*\*Please refer to local regulations for full guidelines, specifications & approved materials prior to any build or installation.*
